

# Information Systems Management Consultant, Consulting (Brussels)

## Organisation

Want to join a dynamic company that has grown from 6 to 850 people in Europe in 12 years?

Thanks to its innovating processes and original organisation, this company has become a leading consulting firm specialized in Management and Business Consulting.

To continue the development of their fast growing Brussels' office, they are willing to recruit a Consultant specialized in Marketing and Innovation.

## Function

As an IS Management consultant, you will help their clients in the fulfilment of their IT strategy and work on the following issues:

- Strategy: market study, opportunity study, plan definition, change management, roadmap,
- Organisation: IT Governance, organization structure, processes, CobIT, audit, performance analysis,
- Service Management: services management policy, standardization (ITIL), etc.
- Project Management: change management, methodologies (Prince 2 & lean)
- Security: risk analysis, security organization, sensitizing, information access management, etc.
- Infrastructures and Communications: virtualization, storage, servers, networks (LAN, MAN, WAN), ToIP/VoIP, systems

You will work closely with both General and IT management teams of leading corporations in all sectors.

## Profile

- You hold a Master degree (Civil or Business engineer or in Mathematics)
- You have a relevant experience of minimum 2 years with a good understanding of IT issues. An experience in consulting is a plus
- You have excellent communication skills and are able to work in different languages (French, Dutch & English)
- You demonstrate ambition, high quality work, adaptability and enthusiasm

## Are you up for the challenge?
